

Download Applying Telecommunications And Technology From A Global Business Perspective

About the 2018 Summit. Launched in 2008, DLA Piper's award-winning Global Technology Summit is an exclusive two-day event dedicated to providing insight and analysis into the current emerging technology and legal trends affecting businesses today. Written by members of our distinguished staff of experts, these white papers, articles, and complimentary reports provide interesting perspectives on technology and telecom issues, as well as examples of actual forecasting projects. The Boston Consulting Group is a global management consulting firm with over 80 offices around the world. We advise leading organizations across all industries in value creation, strategy, innovation, operations, digital transformation and more. The Global Positioning System (GPS), originally Navstar GPS, is a satellite-based radionavigation system owned by the United States government and operated by the United States Air Force. It is a global navigation satellite system that provides geolocation and time information to a GPS receiver anywhere on or near the Earth where there is an ...
