

Download Building Sustainable Societies : A Blueprint For A Post-industrial World

One of the central objectives of green economic transformation is to move extractive industry from the country to the city. Virgin materials are no longer appropriate sources for most of society's production. A Space Colony is when a colony is not on the surface of a planet, but instead is a huge space station. They are discussed in detail here. And when a mature colony starts making noises about "No Taxation Without Representation", the time is ripe for a War of Independence. Health is one of the most fundamental aspects of human development; it is an undisputable right and a key to development of society. Therefore, it is positioned as a key feature of human development in the SDGs again, but only in a more integrated manner than the MDGs. The 16th International Docomomo Conference will take place in Tokyo, from the 10th to 13th September 2020, organized by Docomomo Japan, under the theme "Inheritable Resilience: Sharing Values of Global Modernities".
