

# **Download Earth Science Lab Practical Answers**

Learn what earth and space science is and how that fits into the wider category of STEM subjects. Take a quiz and see how well you understand the relationship between the two. Earth science is a field that includes geology, astronomy, meteorology, and oceanography. Scientists do research in these fields to discover past and future events. The Geology of the Moon online course is designed for practicing teachers who want to understand more about the Moon and its history and relationship to Earth.
