

Download Electric Locomotive Operating Manual

Summary. Built by Commonwealth Engineering of Granville N.S.W., with Mitsubishi Electrical Equipment, for the State Rail Authority of New South Wales, locomotive 8606 was delivered on 12th September 1983, and entered service on 21st September 1983. Following the SETS "86 Class Farewell Tour" on 7th September 2002 (which marked the end of commercial use of electric locomotives in NSW), key staff from Lithgow Locomotive Maintenance Centre urged that 4615 be returned to traffic and generously offered their assistance.
