What to Do If You Will Be Absent from Classes, Labs, or Exams. Dear Student, The University is committed to a culture of academic engagement between students and faculty. Striving for #BalanceForBetter in Publishing and Beyond. Fri, 08 Mar 2019 Forty-four years ago, the United Nations proclaimed March 8th as International Women's Day (IWD) in an effort to recognize women's rights and celebrate the many amazing things that women all over the world have contributed to the global community. This article discusses the gendered nature of politics (as practice) and political science (as an academic discipline). It studies the sex-typing characteristic of most institutions in the modern world and describes how gender shapes the ways people organize, think, and know about the world. Gender is the range of characteristics pertaining to, and differentiating between, masculinity and femininity. Depending on the context, these characteristics may include biological sex (i.e., the state of being male, female, or an intersex variation), sex-based social structures (i.e., gender roles), or gender identity.
