Sociology is the scientific study of society, patterns of social relationships, social interaction, and culture of everyday life. It is a social science that uses various methods of empirical investigation and critical analysis to develop a body of knowledge about social order, acceptance, and change or social evolution. Military sociology is a subfield within sociology. It corresponds closely to C. W. Mills's summons to connect the individual world to broader social structures. sociology, a global introduction. download. sociology, a global introduction Why Sociology at LSBU? power-off Recent graduates are now research assistants, school student mentors and charity workers - careers are likely in teaching, social work, marketing, public administration, the voluntary sector, social research, journalism and programme research.
