

# Download Learning Vascular And Interventional Radiology Learning Imaging

The Society of Interventional Radiology is a national organization of physicians, scientists and allied health professionals dedicated to improving public health through disease management and minimally invasive, image-guided therapeutic interventions. Virtual touch tissue imaging quantification shear wave elastography for determining benign versus malignant cervical lymph nodes: a comparison with conventional ultrasound. Radiology is a medical specialty that uses x-rays and radioactive substances to help diagnose and treat disease. Marshfield Clinic radiology features an experienced team of radiologists, medical physicists, nurses, and technologists whose expertise provides decision support to referring physicians and excellent care to patients. The UPMC Interventional Radiology Division is delighted to congratulate Paula Novelli, MD on being awarded grants from the both the Magee-Womens Research Institute & Foundation and the Beckwith Institute for 2018.
