Medicinal plants, also called medicinal herbs, have been discovered and used in traditional medicine practices since prehistoric times. Plants synthesise hundreds of chemical compounds for functions including defence against insects, fungi, diseases, and herbivorous mammals. In an ideal world, we would each have our personal list of top ten garden herbs, tailored to our particular climate and health concerns. My hope is that the information below inspires you, as a jumping board of sorts, in creating your own unique dream medicinal herb garden.

1. Introduction.
