

Download Nortel Networks Phone Manual Change Time

Changing the time on one Nortel phone on the system will update the time on all Nortel phones on the system that have a display screen. This is useful because the process only needs to be done once for each time a change is needed, rather than having to manually change the time on every phone. M7310 and M7324: Irregardless of what your buttons are labeled during normal operation of your phone, when you are in programming mode, the function of certain buttons change. When you exit programming mode, the buttons will go back to their normal function. During programming mode, the buttons indicated above become the four programming buttons shown above. Nortel Norstar Telephone Systems Changing the time on a Norstar system must be done using a display phone. Using a M7310 or T7316 the right 2 buttons under the display are "NEXT" and "SHOW" respectively. *If this Time/Date procedure does not work, then you have an older Software Revision. Changing the time on a Norstar system must be done using a display phone. Using a M7310 or T7316 the right 2 buttons under the display are "NEXT" and "SHOW" respectively.
