Nuclear peace. Nuclear peace is a theory of international relations that argues that under some circumstances nuclear weapons can induce stability and decrease the chances of crisis escalation. In particular, nuclear weapons are said to have induced stability during the Cold War, when both the US and the USSR possessed mutual second...By NNadir. I trust — and I hope I am justified in this — that no one wants a nuclear war. I know I don't. We already have a set of environmental problems that are worse than a limited nuclear war, and may be facing an environmental crisis that might be as dire as a large scale nuclear war, specifically, a collapsing atmosphere.HIST3219 Nuclear War and Peace, Part II Module Overview Part II of this module examines the post-1968 global nuclear order and its discontents, acquainting you with the facts, cases, theories and debates necessary to comprehend the history of nuclear weapons from the opening for signature of the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) to the present.Nuclear War and Nuclear Peace: Israel's strategic options Failed diplomatic negotiations between Iran and the so-called P5-plus-1 countries will allow Iran to become a nuclear weapons state.
