

Download The American Railroad Freight Car From The Wood Car Era To The Coming Of Steel

A railroad car or railcar (American and Canadian English), railway wagon or railway carriage (British English and UIC), also called a train car or train wagon, is a vehicle used for the carrying of cargo or passengers on a rail transport system (a railroad/railway). American Car and Foundry (often abbreviated as ACF) is an American manufacturer of railroad rolling stock. One of its subsidiaries was once (1925–54) a manufacturer of motor coaches and trolley coaches under the brand names of (first) ACF and (later) ACF-Brill. 1" Scale Railroad Supply: Manufacturer and market Nelson Gray line of 1" scale model railroad kits and components. Birmingham cable tram 104. Thank you to John Perkin. "The cars on all the tramways are long, narrow, double-decked, ugly, and dirty affairs, having no kind of conveniences or provisions for the comfort of the traveling public.
