

Download Zsk Twin Screw Extruder Manual

Extruders are used for the continuous forming of products. Extruders take a mass of product and forces the product through a former, often called a die plate, to create the proper form in the extruded product. Coperion and Coperion K-Tron integrate a wide variety of process steps into their completely automated systems including mixing, sifting and even extrusion utilizing Coperion's high efficiency extruders. Worlds largest stock of new, used & reconditioned processing and packaging equipment. Serving the candy, food, packaging, cosmetic, and pharmaceutical industries.
